

HOODS / HEADWEAR

ETF20TKV

Eagle Technical Products are world leaders in the design and production of fire protective flash hoods. The Eagle ETF20TKV hood features a Kermel® Viscose outer and Kermel® Viscose lining giving the wearer maximum protection. The notched shoulders and longer length neck ensures a proper fit and added protection across the chest.

The unique Eagle design balaclava features two totally flat crushed seams for extreme comfort and fit. The longer length assures that this hood will stay tucked inside other required equipment.

PRODUCT FEATURES

- Innovative design to ensure that the seams are comfortable.
- Elasticated face opening.
- Extended neck for additional protection.
- Designed to work alongside other PPE and sits comfortably under shoulder braces.
- The fabrics are designed in a rib design for additional comfort & stretch using a warp knitted fabric that shows superior fit and comfort.
