

ULTIMATE GLOW+ ILLUMINATED PBI® FIREFIGHTER GLOVES

ETF3200
style shown

FEATURES

- Revolutionary Photoluminescent Technology:** Absorbing UV light by day and emitting a potent afterglow in low light with a 555-nanometer wavelength, these gloves offer unparalleled visibility for firefighters, enhancing situational awareness for swift, safe navigation in high-risk environments, penetrating smoke where traditional flashlights falter.
- Open Gauntlet:** Designed for enhanced fit, this option ensures a secure yet comfortable fit around your wrist, allowing for unrestricted movement and flexibility.
- Knitted Wrist with Kevlar® Cuff:** Seamlessly integrating with fire gear, this cuff option provides a snug and secure fit, enhancing overall safety and protection in high-risk environments.
- Advanced Grip and Abrasion Performance:** PBI® Flex 7™ is engineered to elevate your performance with increased grip and abrasion resistance, providing you with the confidence to tackle any task with precision and control.
- Long Gauntlet (Texas Style):** Constructed from Nomex® fabric, this option is perfect for wearers requiring gloves over sleeves, providing an additional layer of thermal protection and peace of mind.
